## eyes in the back of your head (an incantation)

---

*Eyes in the back of your head (an incantation)* uporablja površino slike kot pot z namenom vzpostavljanja iskanja skozi mitološko arhitekturo, kar ustvarja napetosti med prostorom, zemljevidom in ozemljem na sliki.

---

*Eyes in the back of your head (an incantation)* uses the image surface as a pathway to initiate the quest through a mythological architecture creating the tension between pictorial space, the map and the territory.

---
