MAO debata

Evropske oblikovalske zgodbe

Sreda, 9. november 2016, ob 18.00

MAO in art:tečaji bo gostil debato, na kateri bosta Michaela Tomišková in Jakub Jandourek, ustanovitelja češkega studia produktnega oblikovanja DECHEM, delila svoje poglede o pristopu k oblikovanju in proizvodnji v češkem in evropskem okolju.

DECHEM je vodilni studio produktnega oblikovanja s Češke in glavni zmagovalec nagrade Czech Grand Design awards 2014. Posebno pozornost namenjajo steklu, njihova dela odlikujejo nenavadna poezija in pametne rešitve.

Gaja Mežnarič Osole je oblikovalka in del kolektiva Re-generacija, ki povezuje oblikovalske prakse s trajnostjo in se odziva na trenutne ekonomske, družbene in okoljske probleme.

Zaven je multidisciplinarni ustvarjalni studio, ki se osredotoča na raziskovanje interakcije med komunikacijo, oblikovanjem in umetnostjo. Delujejo na področjih od produktnega in grafičnega oblikovanja, instalacij in raziskav do razvoja konceptov in sodelujejo s strokovnjaki z različnih področjih.

Debata poteka ob razstavi Evropske oblikovalske zgodbe, ki je na ogled v grajski kapeli.

Razstava

Evropske oblikovalske zgodbe
9. november 2016 ob 20:00 uri

Razstava Evropske oblikovalske zgodbe v intimnem prostoru grajske kapele predstavlja dela skoraj 20 oblikovalcev in ustvarjalnih projektov iz različnih evropskih držav. Prikazan bo multimedijški mozaik avtentičnih intervjujev v obliki videov in kratkih dokumentarnih filmov o oblikovalcih in prostorih, s katerimi se srečujejo na svojih potovanjih.

Evropske oblikovalske zgodbe so mednarodni kuratorski projekt dokumentiranja zgodb v delih izbranih oblikovalcev. Te zgodbe so zbiralci intimnih trenutkov v ustvarjalnih procesih, načinih razmišljanja ter v delovnem in življenjskem okolju, ki kar najbolj povzamejo zgodbo končnega izdelka. Ne omejujejo se na posamezno oblikovalsko področje, najsi gre za posameznega oblikovalca, studio, blagovno znamko ali rokodelca. Iščejo različne pristope v sodobnem oblikovanju, ki se odzivajo na trenutne razmere v posameznih državah ali na dandanašnjo družbo na splošno. Njihov cilj je predstaviti oblikovanje kot pomembno dinamično gonilno silo in kot instrument, ki bogati naša življenja.

Snovalci projekta so potovali po različnih evropskih državah, kjer so zbirali avtentičen material in spoznanja v obliki fotografij, besedil ter videov. Poleg spletne platforme organizirajo razstave, projekcije, predavanja ter zapise za prikaz trenutnega stanja oblikovalske scene na starem kontinentu.

European Design Stories

The exhibition European Design Stories will display almost 20 designers and creative projects from various European countries in an intimate chapel installation. It will present a multimedia mosaic of authentic video interviews and short documentaries on the designers and places encountered during their journeys.

European Design Stories represents an international curatorial project documenting stories in works by selected original creators. They are collectors of intimate moments in creative processes, ways of thinking, or working and living environments that best capture the narratives of final things. They do not limit to any particular design field, no matter if it is an individual designer, studio, brand or craftsman. They seek various approaches in contemporary design that respond to current issues in particular countries or in the society in general nowadays. Their aim is to present design as a remarkable dynamic mover and an instrument, which enhances our lives.

They make journeys across various European countries and collect authentic material and insights in form of photographs, texts and videos. Apart from the online platform, they organize exhibitions, screenings, lectures and prints to reflect current background of the design scene of the old continent.
